

Narciso's Multiples Faces

Abstract:

This article seeks to discuss the narcissism as a theoretical concept, and presents some fragments of sessions to illustrate the phenomena in psychoanalytical clinic. It has been divided in two parts. The first one presents the concept of narcissism and its development, beginning with the Freud's contributions and therefore with other authors. The article also presents some characteristics of psychic dynamics of narcissistic' patients, to help analysts to identify the process into clinical setting. In the second part some psychoanalytical sessions' fragments are presented of four patients to illustrate the psychic dynamics of narcissist patients.

Key-words: Narcissism, psychoanalytical clinic, some characteristics.
